

Gratopia Quality Assurance Team

Gratopia's QA team, composed of active and knowledgeable players, helps identify issues and provide suggestions to ensure player satisfaction. This team will have the opportunity to give input on new server features before anyone else, participate in BETA testing, and more.

Below is a description of the QA role and what to expect from it:

- Assist the staff team in identifying bugs and exploits by ensuring players report bugs to staff members.
- Test bug fixes to confirm their effectiveness.
- Have the opportunity to get involved with testing new features.
- Suggest new server features to enhance player experience and provide constructive feedback on proposed features.
- Ensure that staff are kept up to date on player concerns.
- Be active in-game and on Discord to help identify ways to improve the player experience.

What are the requirements to be apart of the QA team?

- We are looking for members who are familiar with the server.
- To be eligible for the position, you must have played on Gratopia for over one month and have an unshared, full-access Java Edition Minecraft account.
- We seek players willing to spend some of their time testing server features and bugs.
- Open-minded individuals who can provide constructive feedback are highly desired.
- Candidates are expected to follow server rules and should not have an extensive history of infractions or current permanent punishments that could complicate communications.

Where do you apply?

If you are interested in joining the QA team, please fill out an application [here](#).
